DETAILED ACTION

1. The amendment and response filed on September 9, 2005 have been entered.

Accordingly:

- Claim 47 has been cancelled; and
- Claims 39 and 48 have been amended.

Allowable Subject Matter

2. Claims 1, 20 and 39 generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn. Thus, all claims, except the cancelled claim 47, are allowable.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. Claims 1-46, 48 and 49 are allowed.

The prior art of record, including Cooper ('104) and LUMILEDS, does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose a light-emitting apparatus combining:

- a reflector partially surrounding a side-emitting optoelectronic device, and the reflector spaced from the optoelectronic device as claimed in claims 1 and 20;
- a window portion defining an arc, and the window outputting the light in the defined arc as recited in claims 1 and 20;
- a second reflector reflecting light perpendicular to a central axis of the side-emitted light source as recited in the amended independent Claim 39.

The above-indicated combination, including an arc-shaped window producing an arc shaped beam of light emitted by an optoelectronic device, makes this invention unique.

The prior art, including those indicated above, teaches an LED-based light emitting apparatus emitting light in all directions – 360 degrees – in substantially horizontal plane.

Therefore, claims 1, 20 and 39 are allowed over prior art.

Claim 2-19 are necessarily allowed because of its dependency on the allowed base Claim 1.

Claim 21-38 are necessarily allowed because of its dependency on the allowed base Claim 20.

Claim 40-46, 48 and 49 are necessarily allowed because of its dependency on the allowed base Claim 39.
